## EXPLANATORY MEMORANDUM

### 1. CONTEXT OF THE PROPOSAL

On 14 October 2005 the Council has authorised the Commission to conduct negotiations within the framework of the Euro-Mediterranean Agreement with the State of Israel, taking into account the progress made by Israel as regards the European Neighbourhood Policy Action Plan, in order to achieve greater liberalisation of reciprocal trade in agricultural, processed agricultural products and fish and fishery products, in the spirit of the Barcelona Process and in line with the principles of the European Neighbourhood Policy and the conclusions of the Euro-Mediterranean Conference of Ministers of Foreign Affairs in Luxembourg on 30-31 May 2005.

The European Commission and Israel officially opened the negotiations on 19 June 2006 in Tel-Aviv and concluded on 30 April 2008. The new Agreement in the form of an Exchange of Letters was signed on 4.11.2009 in Brussels and entered into force on 1.1.2010.

After the application of the new agreement, on 26 April 2010, the Israeli Embassy signalled a problem – customs duty charged on import into the EU of chemically pure lactose originating in Israel.

After deep analysis, the Commission services came to the conclusion that, as during negotiations the initial wording of Article 7: definition of industrial products in the EU-IL Association agreement<sup>1</sup> was modified in order to align it with the WTO definition, the Commission unintentionally withdrew an existing tariff concession. In the new Protocol 1 (EU concessions granted to Israel), in the list of sensitive products CN subheadings 1702 11 00 (chemically pure lactose) ex 1702 30 50 and ex 1702 30 90 (chemically pure glucose) were not mentioned as excluded from heading 1702, (which during the negotiations with Israel was on the whole considered as sensitive on the EU side). Therefore, since 1.1.2010, the EU side was applying full duty to imports from Israel of chemically pure lactose and glucose. These technical changes are required in order to comply with the commitments on market access of agricultural products and processed agricultural products of the previous Agreements.

Using the opportunity of these necessary technical modifications of the Association Agreement, some additional technical corrections for processed agricultural products were also included, in order to clarify an interpretation in the interest of legal certainty of the Agreement in the form of an Exchange of Letters signed on 4 November 2009 between the European Communities and the State of Israel concerning reciprocal liberalisation measures on the above mentioned products.

The European Commission and the State of Israel concluded the negotiations on the necessary technical modifications on 19 September 2011 in Brussels and the Agreed Minutes with the draft Agreement in the form of an Exchange of Letters were initialled on the same day. In order to implement the results of this technical adaptation concluded with the State of Israel, the Commission proposes to the Council to adopt the attached Exchange of Letters.

---

<sup>1</sup> Article 7 EU-IL AA on the definition of industrial products – initial wording: "The provisions of this Chapter shall apply to products originating in the Community and in Israel other than those listed in Annex II to the Treaty establishing the European Community and, as far as products originating in Israel are concerned, other than those listed in Annex I to this Agreement."

The intention of both sides is that this Agreement enters into force in 2011.

In consequence, the Commission proposes to the Council to adopt the annexed Decision.

<sup>(3)</sup> Entry under this subheading is subject to the conditions laid down in the relevant Community provisions (Part 10 of Part B (Specific Marketing Standards) of Annex I to Regulation (EU) No 543/2011, as amended).

<sup>(4)</sup> Within this tariff quota the specific duty provided in the Community's list of concessions to the WTO is reduced to zero for the period from 1 December to 31 May, if the entry price is not less than EUR 264/tonne, being the entry price agreed between the European Commission and Israel. If the entry price for a consignment is 2, 4, 6 or 8 % lower than the agreed entry price, the specific customs quota duty shall be equal respectively to 2, 4, 6 or 8 % of this agreed entry price. If the entry price of a consignment is less than 92 % of the agreed entry price, the specific customs duty bound within the WTO shall apply.

(\*) In this respect, "agricultural component" is the specific part of the duty established in Regulation (EC) No 861/2010 (OJ L 284, 29.10. 2010, p. 1).

(\*\*) For those products the applicable duty beyond the tariff quota is established in Table 3 of this Annex.

<sup>(2)</sup> Notwithstanding the rules for the interpretation of the Harmonised System (HS) or of the Israeli tariff nomenclature, the wording for the description of the products is to be considered as having no more than an indicative value, the preferential scheme being determined, within the context of this Annex, by the coverage of the HS codes or of the Israeli tariff codes. Where "ex" HS codes or "ex" Israeli tariff codes are indicated, the preferential scheme is to be determined by the application of the HS codes or Israeli tariff codes and corresponding description taken together.
