Proposal for a

**COUNCIL DECISION**

**on a Community position within the EC-Turkey Customs Co-operation Committee on the adoption of a Decision laying down detailed rules for the application of Decision No 1/95 of the EC-Turkey Association Council**

(presented by the Commission)

## EXPLANATORY MEMORANDUM

### 1) Context of the proposal

- **Grounds for and objectives of the proposal**

Decision No 1/2001 of the EC-Turkey Customs Co-operation Committee of 28 March 2001, lays down detailed rules for the application of Decision No 1/95 of the EC-Turkey Association Council. The Decision has to be amended to take account of enlargement and of recent developments in the Community Customs legislation. It has also to be amended to enable the acceptance by Turkey of A.TR movement certificates issued in the Community on the basis of single authorisations of approved exporters issued in a Member State other than those of actual export of the goods.

Decision No 1/1999 of the EC-Turkey Customs Co-operation Committee of 28 May 1999 lays down procedures to facilitate the issue of movement certificates EUR.1 and the making out of invoice declarations under the provisions governing preferential trade between the European Union, Turkey and certain European countries. Decision No 1/2000 of the EC-Turkey Customs Co-operation Committee of 25 July 2000, on the acceptance, as proof of Community or Turkish origin, of movement certificates EUR.1 or invoice declarations issued by certain countries that have signed a preferential agreement with the Community or Turkey. Both Decisions ensure, for the products covered by the customs union, the necessary linkage between the free circulation within the customs union and the preferential relations of its two parts with their common trade partners. It is therefore appropriate to incorporate in the current Decision the provisions currently laid down in Decisions No 1/1999 and No 1/2000 and to repeal them.

- **General context**

At the 35<sup>th</sup> meeting of the EC-Turkey Customs Co-operation Committee in Brussels on 20 January 2006, the Commission and the Turkish side agreed on the text of a draft Decision of the EC-Turkey Customs Co-operation Committee, laying down detailed rules for the application of Decision No 1/95 of the EC-Turkey Association Council.

At the Palermo Conference in March 2002, the Euromed Trade Ministers had agreed to the extension of the pan-European system of cumulation of origin to all the Mediterranean partners. Following this extension, the necessary reference to proofs of origin EUR-MED should be introduced in the provisions subject to this proposal.

Further to the outcome of the EC – Faroe Islands/Denmark Joint Committee of the 28 November 2003, it has been agreed to also include the Faroe Islands in the system of pan-Euro-Mediterranean cumulation of origin.

This new Decision of the EC-Turkey Customs Co-operation Committee ('Bridging-Legislation') will incorporate the provisions on supplier's declaration, currently laid down in Decision 1/1999 of the EC-Turkey Customs Co-operation Committee of 28 May 1999 (OJ L 204 of 4.8.1999, p. 43) and adapt them for the purpose of pan-Euro-Mediterranean cumulation.

- **Existing provisions in the area of the proposal**

Decision No 1/2001 of the EC-Turkey Customs Co-operation Committee of 28 March 2001, lays down detailed rules for the application of Decision No 1/95 of the EC-Turkey Association Council.

Decision No 1/1999 of the EC-Turkey Customs Co-operation Committee of 28 May 1999 lays down procedures to facilitate the issue of movement certificates EUR.1 and the making out of invoice declarations under the provisions governing preferential trade between the European Union, Turkey and certain European countries.

Decision No 1/2000 of the EC-Turkey Customs Co-operation Committee of 25 July 2000, on the acceptance, as proof of Community or Turkish origin, of movement certificates EUR.1 or invoice declarations issued by certain countries that have signed a preferential agreement with the Community or Turkey.

The provisions of the origin Protocols to these preferential agreements, allowing the extension of the system of the pan-European cumulation of origin to the Faroe Islands and to countries – other than Turkey - which are participants to the Euro-Mediterranean partnership, based on the Barcelona Declaration adopted at the Euro-Mediterranean Conference held on 27 and 28 November 1995

- **Consistency with the other policies and objectives of the Union**

The proposal aims on implementing the final phase of the EC-Turkey Customs Union, as well as the preferential trade relations between the Community and Turkey and its partners in the system of pan-Euro-Mediterranean cumulation of origin

## 2) **Consultation of interested parties and impact assessment**

- **Consultation of interested parties**

None

- **Collection and use of expertise**

None

- **Impact assessment**

The amendment proposed is a legal instrument necessary to facilitate the implementation of the detailed rules for the application of Decision 1/95, taking into consideration the system of pan-Euro-Mediterranean cumulation of origin.

## 3) **Legal elements of the proposal**

- **Summary of the proposed action**

The attached proposal aims at the adoption by the Council of a Community position on a new Decision of the EC-Turkey Customs Co-operation Committee, providing detailed rules for the application of the Customs Union Decision No 1/95 of the EC-Turkey Association Council.

These rules are currently laid down in Decision No 1/2001 of the EC-Turkey Customs Co-operation Committee, amended by Decision No 1/2003.

The new 'Bridging Legislation' will:

- take account of enlargement, in particular regarding endorsement of documents in new Community languages and of recent developments in the Community Customs legislation, in particular regarding the outward processing procedure;
- enable the acceptance by Turkey of A.TR movement certificates issued in the Community on the basis of single authorisations of approved exporters issued in a Member State other than those of actual export of the goods;
- incorporate and amend the provisions currently laid down in two separate Decisions of the EC-Turkey Customs Co-operation Committee<sup>1</sup>, in order to facilitate a joint application of the customs union and of the preferential trade arrangements between the Community or Turkey and the countries applying the system of 'pan Euro-Mediterranean' cumulation of origin

In order to facilitate the implementation of the detailed rules for the application of Decision 1/95, it is appropriate to replace Decision No 1/2001 by a new Decision

- **Legal basis**

#### *Article 12*

1. An exporter who frequently exports goods from a Member State of the Community other than the one in which he is established may obtain approved exporter status covering such exports.

#### *Article 17*

1. By derogation from Article 5, the provisions on free circulation laid down in the basic Decision also apply to goods imported in one part of the customs union if they are accompanied by a proof of Turkish or Community origin, established in a country, a group of countries or a territory under the provisions of preferential trade agreements, concluded by both the Community and Turkey with this country, group of countries or territory and providing for a system of cumulation of origin implying the application of identical rules of origin and of a prohibition of drawback of, or exemption from, customs duties.

In all cases, the settlement of disputes between the importer and the customs authorities of the importing State shall be under the legislation of the said State.

1. Information sheet INF 2 shall be made out, for the quantities of goods entered for the procedure, in an original and one copy on forms which conform to the specimen set out in Annex 71 of the Implementing Provisions of the Community Customs Code, when it is issued in the Community and to the specimen set out *mutatis mutandis* in the Turkish Customs Law on the basis of that Annex, when it is issued in Turkey. #### *Article 29*

Partial relief from import duties by taking the cost of the processing operation as the basis of the value for duty shall be granted on request for compensating products which are to be released for free circulation.

Customs authorities shall refuse the calculation of partial relief from import duties under this provision if before the compensating products are released for free circulation it is established that the sole object of the release for free circulation at a zero duty rate of the temporary export goods, which do not originate in one of the parts of the Customs Union, within the meaning of Title II, Chapter 2, Section 1, of the Community Customs Code and Title II Chapter 2 Section 1 of the Turkish Customs Code, was to benefit from partial relief under this provision.

The rules on the customs value of goods laid down in the Community Customs Code and the Turkish Customs Code shall apply *mutatis mutandis* to the processing costs which shall not take into account the temporary export goods.

### **CHAPTER 3 RETURNED GOODS**

#### *Article 30*

1. Goods which, having been exported from one part of the customs union, are returned to the other part of the customs union and released for free circulation within a period

of three years shall, at the request of the person concerned, be granted relief from import duties.

The three-year period may be exceeded in order to take account of special circumstances.

2. Where, prior to their exportation from the customs territory of one part of customs union, the returned goods had been released for free circulation at reduced or zero import duty because of their use for a particular purpose, exemption from duty under paragraph 1 shall be granted only if they are to be re-imported for the same purpose.

Where the purpose for which the goods in question are to be imported is no longer the same, the amount of import duties chargeable upon them shall be reduced by any amount levied on the goods when they were first released for free circulation. Should the latter amount exceed that levied on the entry for free circulation of returned goods, no refund shall be granted.

3. The relief from import duties provided for in paragraph 1 shall not be granted in the case of goods exported from the customs territory of one part of customs union under the outward processing procedure unless those goods remain in the state in which they were exported.

#### *Article 31*

The relief from import duties provided for in Article 30 shall be granted only if goods are re-imported in the state in which they were exported.

#### *Article 32*

Articles 30 and 31 shall apply *mutatis mutandis* to compensating products originally exported or re-exported subsequent to an inward processing procedure.

The amount of import duty legally owed shall be determined on the basis of the rules applicable under the inward processing procedure, the date of re-export of the compensating products being regarded as the date of release for free circulation.

#### *Article 33*

Returned goods shall be exempt from import duties even where they represent only a proportion of the goods previously exported from the other part of the customs union.

The same applies where the goods consist of parts or accessories belonging to machines, instruments, apparatus or other products previously exported from the other part of the customs union.

### *Article 34*

1. By derogation from Article 31, returned goods in one of the following situations shall be exempt from import duties:
  - (a) goods which, after having been exported from the other part of the customs union, have received no treatment other than that necessary to maintain them in good condition or handling which alters their appearance only;
  - (b) goods which, after having been exported from the other part of the customs union, received treatment other than that necessary to maintain them in good condition or handling other than that altering their appearance, but which proved to be defective or unsuitable for their intended use, provided that one of the following conditions are fulfilled:
    - such treatment or handling was applied to the goods solely with a view to repairing them or restoring them to good condition,
    - their unsuitability for their intended use became apparent only after such treatment or handling had commenced.

2. Where returned goods have undergone treatment or handling permitted under paragraph 1(b) and such treatment would have rendered them liable to import duties if they had come under outward processing, the rules in force for charging duty under the said procedure shall apply.

However, if goods have undergone an operation consisting of repair or restoration to good condition which became necessary as a result of unforeseen circumstances which arose outside both parts of customs union, this being established to the satisfaction of the customs authorities, relief from import duties shall be granted provided that the value of the returned goods is not higher, as a result of such operation, than their value at the time of export from the customs territory of the other part of the customs union.

3. For the purposes of the second subparagraph of paragraph 2:
  - (a) "repair or restoration to good condition which became necessary" shall mean: any operation to remedy operating defects or material damage suffered by goods while they were outside both parts of the customs union, without which the goods could no longer be used in the normal way for the purposes for which they were intended;
  - (b) the value of returned goods shall be considered not to be higher, as a result of the operation which they have undergone, than their value at the time of export from the other part of the customs union, when the operation does not exceed that which is strictly necessary to enable them to continue to be used in the same way as at that time.

When the repair or restoration to good condition of goods necessitates the incorporation of spare parts, such incorporation shall be limited to those parts strictly necessary to enable the goods to be used in the same way as at the time of export.

### *Article 35*

When completing the customs export formalities, the customs authorities shall, at the request of the person concerned, issue a document containing the information necessary for identification of the goods in the event of their being returned to the customs territory of one part of the customs union.

### *Article 36*

1. The following shall be accepted as returned goods:
  - goods for which the following documents are produced in support of the declaration for release for free circulation:
    - (a) the copy of the export declaration returned to the exporter by the customs authorities, or a copy of such document certified true by the said authorities; or
    - (b) the information sheet provided for in Article 37.

Where evidence available to the customs authorities at the customs office of re-importation or ascertainable by them from the person concerned indicates that the goods declared for free circulation were originally exported from the other part of the customs union, and at the time satisfied the conditions for acceptance as returned goods, the documents referred to at (a) and (b) shall not be required.

- goods covered by an ATA carnet issued in the other part of the customs union.

These goods may be accepted as returned goods within the limits laid down by Article 30, even when the validity of the ATA carnet has expired.

In all cases, the following formalities shall be carried out:

- verification of the information given in boxes A to G of the re-importation voucher;
  - completion of the counterfoil and box H of the re-importation sheet;
  - retention of the re-importation voucher.
2. The first indent of paragraph 1 shall not apply to the international movement of packing materials, means of transport or certain goods admitted under specific customs arrangements where autonomous or conventional provisions lay down that customs documents are not required in these circumstances.

Nor shall it apply in cases where goods may be declared for release for free circulation orally or by any other act.

3. Where they consider it necessary, the customs authorities at the customs office of re-importation may ask the person concerned to submit additional evidence, in particular for the purposes of identification of the returned goods.

#### *Article 37*

Information sheet INF 3 shall be made out in an original and two copies on forms which conform to the specimens set out in Annex 110 of the Implementing Provisions of the Community Customs Code, when it is issued in the Community and to the specimens set out *mutatis mutandis* in the Turkish Customs Law on the basis of that Annex, when it is issued in Turkey. The forms shall be completed in one of the official languages of the Community or in the Turkish language.

#### *Article 38*

1. Information sheet INF 3 shall be issued at the exporter's request by the customs authorities at the customs office of exportation at the time of completion of the export formalities for the goods concerned, if the exporter declares that it is probable that these goods will be returned via a customs office of the other part of the customs union.
2. Information sheet INF 3 may also be issued, at the exporter's request, by the customs authorities at the customs office of exportation after completion of the export formalities for the goods concerned, provided that these authorities can establish, on the basis of the information at their disposal, that the particulars in the exporter's request relate to the goods exported.

#### *Article 39*

1. Information sheet INF 3 shall contain all items of information required by the customs authorities for the purpose of identifying the exported goods.
2. Where it is expected that the exported goods will be returned to the other part of the customs union or to both parts of the customs union through several customs offices other than the customs office of exportation, the exporter may ask for several information sheets INF 3 to be issued to cover the total quantity of the goods exported.

Similarly, the exporter may ask the customs authorities which issued an information sheet INF 3 to replace it by several information sheets INF 3 covering the total quantity of goods included in the information sheet INF 3 initially issued.

The exporter may also ask for an information sheet INF 3 to be issued in respect of a proportion only of the exported goods.

#### *Article 40*

The original and one copy of information sheet INF 3 shall be returned to the exporter for presentation at the customs office of re-importation. The second copy shall be kept in the official files of the customs authorities that issued it.

#### *Article 41*

The customs office of re-importation shall record on the original and on the copy of information sheet INF 3 the quantity of returned goods exempted from import duties, retaining the original and sending the copy, bearing the reference number and the date of declaration for free circulation, to the customs authorities which issued it.

The said customs authorities shall compare this copy with the one in their possession and retain it in their official files.

#### *Article 42*

In the event of theft, loss or destruction of the original information sheet INF 3, the person concerned may ask the customs authorities which issued it for a duplicate. They shall comply with this request if the circumstances warrant it. A duplicate so issued shall bear one of the following indications:
