COMMUNICATION FROM THE COMMISSION TO THE COUNCIL

Subject : Agreement between the EEC and Greece on a concerted action project in the field of the registration of congenital abnormalities (medical and public health research)

A program of research (concerted action project) on the registration of congenital abnormalities (medical and public health research) was adopted by the Council on 13 February 1978 *.

Article 6 of that Decision provides that the Community may conclude agreements with other States involved in European cooperation in the field of scientific and technical research (COST) with a view to extending the coordination which is the subject of that Decision to research undertaken in those States. The Commission has been authorized under the terms of that provision to enter into negotiations for the purpose stated.

On 6 October 1978, Greece expressed the wish to participate in the concerted action project concerned. Negotiations with the Hellenic Republic have led to a draft agreement which is set out in an annex to the attached draft Council decision.

This agreement provides that:

- the official responsible for coordinating the national contribution from Greece to the concerted action programme shall be a member of the Concerted Action Committee on the Registration of Congenital Abnormalities
- the financial contribution made to the coordination costs by Greece shall be 22 000 EUA for the period referred to in Article 1 of the Agreement.

The Commission requests the Council to adopt the draft decision on the conclusion of the agreement relating to a concerted action project in the field of the registration of congenital abnormalities (medical and public health research).
