Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

applying a scheme of generalised tariff preferences

{SEC(2011) 536 final}

{SEC(2011) 537 final}

EXPLANATORY MEMORANDUM

The European Union (EU) has granted trade preferences to developing countries through the Generalised Scheme of Tariff Preferences (GSP scheme) since 1971. It is part of its common commercial policy, in accordance with the general provisions governing the EU's external action.

The GSP is one of the key EU trade instruments assisting developing countries in their efforts to ensure core human and labour rights, reduce poverty and promote sustainable development and good governance in developing countries.

The current GSP scheme comprises three preferential agreements whereby the EU grants trade benefits reflecting the differing trade, development and financial needs of developing countries in the form of reduced or zero customs tariffs on imports of goods. Council Regulation (EC) No 732/2008¹ of 22 July 2008 applying the current GSP scheme, extended by Regulation (EU) No² of the European Parliament and of the Council, will expire at the latest on 31 December 2013. The proposed GSP Regulation herewith revises, adapts and updates the GSP scheme in replacement of the current regulation, so as to better reflect the contemporary global economic and trade landscape which has changed significantly since the original scheme was put into place.

Thanks to increased trade, many developing countries and export sectors have successfully integrated within the global marketplace. In such cases, they are able to continue to expand unaided and are putting pressure on the exports of much poorer countries that genuinely need help. The draft proposal would focus the GSP preferences on the countries most in need. This is achieved by enhancing GSP modalities related to the GSP eligibility criteria and the GSP graduation mechanism, which identifies competitive imports and suspends unwarranted preferences.

The scheme also expands its support under the special incentive arrangement for sustainable development and good governance (GSP+) for those countries that commit to embracing core universal values on human, labour rights, environment and governance. While offering further opportunities for potential beneficiaries, the scheme will place more responsibility for countries and require stricter scrutiny of eligibility by the EU. There will be a more effective and transparent mechanism for monitoring and evaluating the implementation of relevant international conventions, whereby the EU seeks noticeable stability and improvement over time in countries' implementation record. This effectively raises the requirements for beneficiary countries, as they have to provide positive and regular proof that they are indeed implementing conventions.

The special arrangement for least developing countries known as 'Everything But Arms', which was added to the GSP scheme in 2004, is unchanged and further supported by new elements in the scheme reflecting the aim of focusing GSP benefits on countries most in need.

¹ Council Regulation (EC) No 732/2008 of 22 July 2008 applying a scheme of generalised tariff preferences for the period from 1 January 2009 to 31 December 2011 and amending Regulations (EC) No 552/97, (EC) No 1933/2006 and Commission Regulations (EC) No 1100/2006 and (EC) No 964/2007 (OJ L 211, 6.8.2008, p. 1).

² OJ L, p. 1.

The reasons which justify the temporary withdrawal of preferences have also been clarified. In particular, it has been made explicit that unfair trading practices include those affecting the supply of raw materials. Furthermore, it has been underlined that preferences may be temporarily withdrawn if beneficiaries fail to comply with international conventions on anti-terrorism. Finally, the wording on international fishery arrangements was expanded to underline that these arrangements may well be international ones.

Also, to ensure a better safeguarding of the EU's financial and economic interests and to enhance legal certainty, stability and predictability, the administrative procedures for safeguard mechanisms are improved by developing clear definitions of key legal concepts. The Regulation will no longer be limited in duration, thus promoting a stable framework both for economic operators and beneficiary countries. Decision-making procedures reflect the new institutional balance among the European Commission, the Council and the European Parliament in particular with respect to the application of implementing or delegated acts.

The new Regulation is premised on enhanced transparency and predictability, including applicable procedures and rights of defence. This will better safeguard the EU's financial and economic interests and will enhance legal certainty and stability. The Regulation indicates the instances where the adoption of delegated acts by the Commission is foreseen following a delegation conferred by the European Parliament and the Council, and also the instances where the Commission will be granted implementing powers.

It is important to bear in mind that preferential access to the EU market is one of several enablers that sustain development through trade. What the new GSP Regulation seeks to achieve is greater simplicity, predictability and better targeting of the EU GSP scheme so as to maximise its effectiveness. All the proposed GSP modalities build on solutions that comply with the requirements – in particular the Enabling Clause – of the World Trade Organisation, and its objective to provide preferences to developing countries. They are also in line with the United Nations' priorities for combating global poverty.

Also, this Regulation is without prejudice to the full application of the entire body of EU law, notably on the sustainability of biofuels or sanitary and phytosanitary conditions for market access, and the EU's policy objectives, in particular on governance in tax matters for development.

The proposal has been drawn up on the basis of a public consultation held between 27 March to 4 June 2010 and of a detailed impact assessment which studied the effects of a number of different policy options. Drawing on the outcome of the impact assessment, the preferred policy option that determined the substance of the proposed new regulation is Option C1.

The proposed Regulation does not incur costs charged to the EU budget. Its application does, however, entail loss of customs revenue. Based on the 2009 figures, the annual loss of customs revenue resulting from the application of the current GSP Regulation was estimated to be EURO 2.97 billion corresponding to a net amount of EURO 2.23 billion after deduction of Member States' collection costs. As a result of the application of the proposed Regulation and on the basis of Annex I in its indicative form, the annual loss of customs revenue is estimated to be EURO 1.87 billion (net amount EURO 1.4 billion).

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

applying a scheme of generalised tariff preferences

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 207 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national Parliaments,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (1) Since 1971, the European Union has granted trade preferences to developing countries under its scheme of generalised tariff preferences.
- (2) The European Union's common commercial policy is to be guided by the principles and pursue the objectives set out in the general provisions governing the Union's external action, laid down in Article 21 of the Treaty on European Union.
- (3) The European Union aims to define and pursue actions in order to foster the sustainable economic, social and environmental development of developing countries, with the primary aim of eradicating poverty.
- (4) The European Union's common commercial policy is to be consistent with and consolidate the objectives of development policy, laid down in Article 208 of the Treaty on the Functioning of the European Union, in particular the eradication of poverty and the promotion of sustainable development and good governance in the developing countries. It is to comply with WTO requirements, in particular the 'Enabling Clause' under which WTO Members may accord differential and more favourable treatment to developing countries³.
- (5) The Communication of 7 July 2004 from the Commission to the Council, the European Parliament and the European Economic and Social Committee, entitled 'Developing countries, international trade and sustainable development: the function of the Community's generalised system of preferences (GSP) for the 10-year period

³ GATT Decision of 28 November 1979 (L4903).

from 2006 to 2015'⁴ sets out the guidelines for the application of the scheme of generalised tariff preferences for the period 2006 to 2015.

- (6) Council Regulation (EC) No 732/2008 applying a scheme of generalised tariff preferences for the period from 1 January 2009 to 31 December 2011⁵, as extended by Regulation (EU) No.....⁶ of the European Parliament and of the Council amending Council Regulation (EC) No 732/2008 applies the scheme of generalised tariff preferences ('the scheme') until this Regulation is applied. Thereafter, the scheme should continue to apply with no expiry date. However, it shall be reviewed five years after its entry into force.
- (7) By providing preferential access to the market of the Union, the scheme should assist developing countries in their efforts to reduce poverty and promote good governance and sustainable development by helping them generate additional revenue through international trade, which can then be re-invested for the benefit of their own development. The scheme's tariff preferences should focus on helping developing countries having greater development, trade and financial needs.
- (8) The scheme of generalised tariff preferences consists of a general arrangement, and two special arrangements.
- (9) The general arrangement should be granted to all those developing countries which share a common developing need and are in a similar stage of economic development. Countries which are classified by the World Bank as high-income or upper-middle income countries have per capita income levels allowing them to attain higher levels of diversification without the scheme's tariff preferences and include economies which have successfully completed their transition from centralised to market economies. Those countries do not share the same development, trade and financial needs as the remaining developing countries; they are at a different stage of economic development, i.e they are not similarly-situated as the more vulnerable developing countries; and, so as to prevent unjustified discrimination, they need to be treated differently. Furthermore, the use of tariff preferences provided under the scheme by high-income or upper-middle income countries increases the competitive pressure on exports from poorer, more vulnerable countries and therefore could impose unjustifiable burden on those more vulnerable developing countries. The general arrangement takes account of the fact that the development, financial and trade needs are subject to change and assures that the arrangement remains open if the situation of a country changes.

For the sake of consistency, the tariff preferences granted under the general arrangement should not be extended to developing countries which are benefiting from a preferential market access arrangement with the European Union, which provides at least the same level of tariff preferences as the scheme for substantially all trade. To provide a beneficiary country and economic operators with time for an orderly

⁵ Council Regulation (EC) No 732/2008 of 22 July 2008 applying a scheme of generalised tariff preferences for the period from 1 January 2009 to 31 December 2011 and amending Regulations (EC) No 552/97, (EC) No 1933/2006 and Commission Regulations (EC) No 1100/2006 and (EC) No 964/2007 (OJ L 211, 6.8.2008, p. 1).

⁶ ...

adaptation, the general arrangement should continue to be granted for two years as from the date of application of a preferential market access arrangement and this date should be specified in the list of beneficiary countries of the general arrangement.

- (10) Countries included in Annex I of the Regulation (EC) No 732/2008 and countries benefitting from autonomous preferential access to the European Union market are eligible⁷. Overseas territories associated with the European Union and overseas countries and territories of countries that are not included in Annex I of the Regulation (EC) No 732/2008 should not be considered eligible for the scheme.
- (11) The special incentive arrangement for sustainable development and good governance is based on the integral concept of sustainable development, as recognised by international conventions and instruments such as the 1986 UN Declaration on the Right to Development⁸, the 1992 Rio Declaration on Environment and Development⁹, the 1998 ILO Declaration on Fundamental Principles and Rights at Work¹⁰, the 2000 UN Millennium Declaration¹¹, and the 2002 Johannesburg Declaration on Sustainable Development¹². Consequently, the additional tariff preferences provided under the special incentive arrangement for sustainable development and good governance should be granted to those developing countries which are vulnerable due to a lack of diversification and insufficient integration within the international trading system, in order to help them assume the special burdens and responsibilities resulting from the ratification of core international conventions on human and labour rights, environmental protection and good governance as well as from their effective implementation.
- (12) These preferences should be designed to promote further economic growth and, thereby, to respond positively to the need for sustainable development. Under this arrangement, the *ad valorem* tariffs should therefore be suspended for the beneficiary countries concerned. The specific duties should also be suspended, unless combined with an *ad valorem* duty.

⁷ Council Regulation (EC) No 732/2008 of 22 July 2008 applying a scheme of generalised tariff preferences for the period from 1 January 2009 to 31 December 2011 and amending Regulations (EC) No 552/97, (EC) No 1933/2006 and Commission Regulations (EC) No 1100/2006 and (EC) No 964/2007 (OJ L 211, 6.8.2008, p. 1), Council Regulation (EC) No 55/2008 of 21 January 2008 introducing autonomous trade preferences for the Republic of Moldova and amending Regulation (EC) No 980/2005 and Commission Decision 2005/924/EC (OJ L 20, 24.1.2008, p. 1) and Council Regulation (EC) No 2007/2000 of 18 September 2000 introducing exceptional trade measures for countries and territories participating in or linked to the European Union's Stabilisation and Association process, amending Regulation (EC) No 2820/98, and repealing Regulations (EC) No 1763/1999 and (EC) No 6/2000 (OJ L 240, 23.9.2000).

⁹ *Rio Declaration on Environment and Development*, adopted by the UN Conference on Environment and Development, 12 August 1992, Rio de Janeiro, A/CONF.151/26 (Vol. I).

¹² *Johannesburg Declaration on Sustainable Development*: adopted by the World Summit on Sustainable Development, 4 September 2002, Johannesburg, A/CONF.199/20.

- (13) Countries that fulfil the eligibility criteria for the special incentive arrangement for sustainable development and good governance should be able to benefit from the additional tariff preferences if, upon their application, the Commission confirms their qualification. It should be possible to submit applications as from the date of entry into force of this Regulation. Countries which benefit from the tariff preferences of this scheme under Regulation (EC) No 732/2008 shall also submit a new application.
- (14) The Commission should monitor the status of ratification of the international conventions and their effective implementation, by examining the conclusions and recommendations of the relevant monitoring bodies established under the respective conventions. Every two years, the Commission should present, to the European Parliament and the Council, a report on the status of ratification of the conventions, the compliance of the beneficiary countries with any reporting obligations under the conventions, and the status of the implementation of the conventions in practice.
- (15) The special arrangement for the least-developed countries should continue to grant duty-free access to the European Union market for products originating in the least-developed countries, as recognised and classified by the United Nations, except for trade in arms. For a country no longer classified by the UN as a least-developed country, a transitional period should be established, to alleviate any adverse effects caused by the removal of the tariff preferences granted under this arrangement. Tariff preferences provided under the special arrangement for the least-developed countries should continue to be granted for those least-developed countries, which benefit from another preferential market access arrangement with the European Union.
- (16) To ensure coherence with the market access provisions for sugar in the Economic Partnership Agreements, imports of products under tariff heading 1701 should require an import licence until 30 September 2015.
- (17) As regards the general arrangement, the differentiation between tariff preferences for 'non-sensitive' products and tariff preferences for 'sensitive' products should be maintained, to take account of the situation of the sectors manufacturing the same products in the European Union.
- (18) Common Custom Tariff duties on non-sensitive products should continue to be suspended, while duties on sensitive products should enjoy a tariff reduction, in order to ensure a satisfactory utilisation rate while at the same time taking account of the situation of the corresponding European Union industries.
- (19) Such a tariff reduction should be sufficiently attractive, in order to motivate traders to make use of the opportunities offered by the scheme. Therefore, the *ad valorem* duties should generally be reduced by a flat rate of 3.5 percentage points from the 'most favoured nation' duty rate, while for textiles and textile goods they should be reduced by 20 %. Specific duties should be reduced by 30 %. Where a minimum duty is specified, that minimum duty should not apply.
- (20) Duties should be suspended totally, where the preferential treatment for an individual import declaration results in an *ad valorem* duty of 1 % or less or in a specific duty of EUR 2 or less, since the cost of collecting such duties might be higher than the revenue gained.

- (21) Graduation should be based on criteria related to sections and chapters of the Common Customs Tariff. Graduation should apply in respect of a section or sub-section in order to reduce cases where heterogeneous products are graduated. The graduation of a section or a sub-section (made up of chapters) for a beneficiary country should be applied when the section meets the criteria for graduation over three consecutive years, in order to increase the predictability and fairness of graduation by eliminating the effect of large and exceptional variations in the import statistics. Graduation should not apply to the beneficiary countries of the special incentive arrangement for sustainable development and good governance and the beneficiary countries of the special arrangement for the least-developed countries as they share a very similar economic profile rendering them vulnerable because of a low, non-diversified export base.
- (22) In order to ensure that this scheme benefits only those countries it is intended to benefit, the tariff preferences provided for by this Regulation should apply, as well as the rules of origin of products, laid down in Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code¹³ [as amended by Commission Regulation (EU) No 1063/2010]¹⁴.
- (23) The reasons for temporary withdrawal of the three arrangements should include serious and systematic violations of the principles laid down in certain international conventions concerning core human rights and labour rights, so as to promote the objectives of those conventions. Tariff preferences under the special incentive arrangement for sustainable development and good governance should be temporarily withdrawn if the beneficiary country does not respect its binding undertaking to maintain the ratification and effective implementation of the conventions or to comply with the reporting requirements imposed by the conventions, or if the beneficiary country does not cooperate with the European Union's monitoring procedures as set out in this Regulation.
- (24) Due to the political situation in Myanmar and in Belarus, the temporary withdrawal of all tariff preferences in respect of imports of products originating in Myanmar and Belarus should be maintained.
- (25) In order to achieve a balance between the need for better targeting, greater coherence and transparency on one hand, and better promoting sustainable development and good governance through a unilateral trade preference scheme on the other hand, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of amendments to Annexes to this Regulation and temporary withdrawals of tariff preferences due to failure to adhere to the principles of sustainable development and good governance, as well as procedural rules regarding the submission of applications for the tariff preferences granted under the special incentive arrangement for sustainable development and good governance, the conduct of a temporary withdrawal and safeguard investigations in order to establish uniform and detailed technical arrangements. It is of particular importance that the Commission carry out appropriate

consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure the simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and Council.

- (26) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for the control by the Member States of the Commission's exercise of implementing powers¹⁵.

The advisory procedure should be used for the adoption of decisions on suspension from the tariff preferences of certain GSP sections in respect of beneficiary countries and on the initiation of a temporary withdrawal procedure, taking into account the nature and impact of these acts.

The examination procedure should be used for the adoption of decisions on safeguard investigations and on suspension of the preferential arrangements where imports may cause serious disturbance to European Union markets.

The Commission should adopt immediately applicable implementing acts where, in duly justified cases relating to safeguard investigations, temporary withdrawals due to non-compliance with customs-related procedures and obligations, imperative grounds of urgency so require.

- (27) The Commission should report regularly to the Council and the European Parliament on the effects of the scheme. Five years after its entry into force, the Commission should report on the operation of the Regulation and assess the need to review the scheme, including the special incentive arrangement for sustainable development and good governance and temporary withdrawal provisions of tariff preferences, taking into consideration the fight against terrorism and the field of international standards on transparency and exchange of information in tax matters. In reporting, the Commission should take into account the implications for development, trade and financial needs of beneficiaries.

Where applicable, compliance with EU sanitary and phytosanitary rules should also be assessed. The report should also include an analysis of the effects of the scheme with regard to imports of biofuels and sustainability aspects,

CHAPTER III

SPECIAL INCENTIVE ARRANGEMENT FOR SUSTAINABLE DEVELOPMENT AND GOOD GOVERNANCE

Article 9

1. A GSP beneficiary country may benefit from the tariff preferences provided under the special incentive arrangement for sustainable development and good governance referred to in Article 1(2)(b) if:
 - (a) it is considered to be vulnerable due to a lack of diversification and insufficient integration within the international trading system, as defined in Annex VII;

- (b) it has ratified all the conventions listed in Annex VIII and the most recent available conclusions of the relevant monitoring bodies do not identify a serious failure to effectively implement any of these conventions;
 - (c) it gives a binding undertaking to maintain ratification of the conventions listed in Annex VIII and to ensure their effective implementation;
 - (d) it accepts without reservation the reporting requirements imposed by each convention and gives a binding undertaking to accept regular monitoring and review of its implementation record in accordance with the provisions of the conventions listed in Annex VIII; and
 - (e) it gives a binding undertaking to participate in and cooperate with the monitoring procedure referred to in Article 13.
2. Whenever Annex II is amended, the Commission shall be empowered to adopt delegated acts in accordance with Article 36 to amend Annex VII in order to review the vulnerability threshold listed in Annex VII 1.b so as to maintain proportionally the same weight of the vulnerability threshold as calculated in accordance with Annex VII.

Article 10

1. The special incentive arrangement for sustainable development and good governance shall be granted if the following conditions are met:
- (a) a GSP beneficiary country has made a request to that effect; and
 - (b) examination of the request shows that the requesting country fulfils the conditions laid down in Article 9(1).
2. The requesting country shall submit its request to the Commission in writing. The request shall provide comprehensive information concerning the ratification of the conventions listed in Annex VIII and shall include the binding undertakings referred to in Article 9(1)(c),(d) and (e).

4. After examining the request, the Commission shall decide whether to grant a requesting country the special incentive arrangement for sustainable development and good governance.

6. For the purposes of paragraphs 4 and 5 the Commission shall be empowered to adopt delegated acts in accordance with Article 36 to establish and to amend Annex III in order to add or remove a country to or from the list of GSP+ beneficiary countries.

7. The Commission shall notify the requesting country of a decision taken in accordance with paragraphs 4 and 5. Where the requesting country is granted the special incentive arrangement, it shall be informed of the date on which that decision enters into force.
8. The Commission shall be empowered to adopt delegated acts, in accordance with Article 36, to establish rules related to the procedure for granting the special incentive arrangement for sustainable development and good governance in particular with respect to deadlines and the submission and processing of requests.

Article 11

1. The products included in the special incentive arrangement for sustainable development and good governance are listed in Annex IX.

9. Where the Commission considers that the findings justify temporary withdrawal for the reasons referred to in paragraph 1, it shall be empowered, in accordance with Article 36, to adopt delegated acts to amend Annex III in order to temporarily withdraw the tariff preferences referred to in Article 1(2)(b).

3. For the purposes of the second subparagraph of paragraph 2 the Commission shall be empowered to adopt delegated acts in accordance with Article 36 to amend Annex IV.

Pending the identification by the United Nations of a newly independent country as a least-developed country, the Commission shall be empowered to adopt delegated acts, in accordance with Article 36, to amend Annex IV as an interim measure so as to include such a country in the list of EBA beneficiary countries.

4. The Commission shall notify the EBA beneficiary country concerned of any changes in its status under the scheme.

 3. Where the Commission considers that there are sufficient grounds justifying temporary withdrawal of the tariff preferences provided under any preferential arrangement referred to in Article 1(2) on the basis of the reasons referred to in paragraph 1 it shall adopt a decision to initiate the procedure for temporary withdrawal in accordance with the advisory procedure referred to in Article 38(2). The Commission shall inform the European Parliament and the Council of this decision.

The beneficiary country has the right to submit its comments on the report. The period for comments shall not exceed one month.
8. Within six months from the expiry of the period referred to in paragraph 4(b) the Commission shall decide:
 - (a) to terminate the temporary withdrawal procedure; or
 - (b) to temporarily withdraw the tariff preferences provided under the preferential arrangements referred to in Article 1(2).
9. Where the Commission considers that the findings do not justify temporary withdrawal, it shall decide, in accordance with the advisory procedure referred to in Article 38(2), to terminate the temporary withdrawal procedure.
10. Where the Commission considers that the findings justify temporary withdrawal for the reasons referred to in paragraph 1, it shall be empowered, in accordance with Article 36, to adopt delegated acts to amend Annex II, III, IV, whichever is applicable, in order to temporarily withdraw the tariff preferences referred to in Article 1(2).
11. Where the Commission decides on temporary withdrawal, the decision shall enter into force six months after it is taken.

13. The Commission shall be empowered to adopt delegated acts, in accordance with Article 36, to establish rules related to the procedure for temporary withdrawal of all arrangements in particular with respect to deadlines, rights of parties, confidentiality and review.

Article 20

Where the Commission finds that the reasons justifying a temporary withdrawal of the tariff preferences as referred to in Article 19(1) no longer apply, it shall reinstate the tariff preferences provided under the preferential arrangements referred to in Article 1(2). For this purpose the Commission shall be empowered to adopt delegated acts, in accordance with Article 36 to amend Annexes II, III or IV, whichever is applicable.

Article 21

1. The preferential arrangements provided for in this Regulation may be withdrawn temporarily, in respect of all or of certain products originating in a beneficiary country, in cases of fraud, irregularities or systematic failure to comply with or to

ensure compliance with the rules concerning the origin of the products and with the procedures related thereto, or failure to provide administrative cooperation as required for the implementation and policing of the arrangements referred to in Article 1(2).

2. The administrative cooperation referred to in paragraph 1 requires, *inter alia*, that a beneficiary country:
 - (a) communicate to the Commission and update the information necessary for the implementation of the rules of origin and the policing thereof;
 - (b) assist the European Union by carrying out, at the request of the customs authorities of the Member States, subsequent verification of the origin of the goods, and communicate its results in time;
 - (c) assist the European Union by allowing the Commission, in coordination and close cooperation with the competent authorities of the Member States, to conduct the European Union administrative and investigative cooperation missions in that country, in order to verify the authenticity of documents or the accuracy of information relevant for granting the preferential arrangements referred to in Article 1(2);
 - (d) carry out or arrange for appropriate inquiries to identify and prevent contravention of the rules of origin;

 - (f) assist the European Union in the verification of conduct where there is a presumption of origin-related fraud, whereby the existence of fraud may be presumed where imports of products under the preferential arrangements provided for in this Regulation massively exceed the usual levels of the beneficiary country's exports.
3. Where the Commission considers that there is sufficient evidence to justify temporary withdrawal for the reasons set out in paragraphs 1 and 2, it shall decide in accordance with the urgency procedure referred to in Article 38(4) to temporarily withdraw the tariff preferences referred to in Article 1(2), in respect of all or certain products originating in a beneficiary country.
4. Before taking such decision, the Commission shall first publish a notice in the Official Journal of the European Union, stating that there are grounds for reasonable doubt about compliance with paragraphs 1 and 2 which may call into question the right of the beneficiary country to continue to enjoy the benefits granted by this Regulation.
5. The Commission shall inform the beneficiary country concerned of any decision taken in accordance with paragraph 3, before it becomes effective.
6. The period of temporary withdrawal shall not exceed six months. On conclusion of the period, the Commission shall decide in accordance with the urgency procedure

referred to in Article 38(4) either to terminate the temporary withdrawal or to extend the period of temporary withdrawal.

7. Member States shall communicate to the Commission all relevant information that may justify temporary withdrawal of the tariff preferences or its extension.

CHAPTER VI

SAFEGUARD AND SURVEILLANCE PROVISIONS

Section I

General Safeguards

Article 22

1. Where a product originating in a beneficiary country of any of the three arrangements referred to in Article 1(2), is imported in volumes and/or at prices which cause, or threaten to cause, serious difficulties to European Union producers of like or directly competing products, normal Common Customs Tariff duties on that product may be reintroduced in accordance with the following provisions.
2. For the purpose of this Chapter, ‘like product’ means a product which is identical, i.e. alike in all respects, to the product under consideration, or, in the absence of such a product, another product which, although not alike in all respects, has characteristics closely resembling those of the product under consideration.
3. For the purpose of this Chapter, ‘interested parties’ means those parties involved in the production, distribution and/or sale of the imports mentioned in paragraph 1 and of like or directly competing products.

Article 23

Serious difficulties shall exist where European Union producers suffer deterioration in their economic and/or financial situation. In examining whether such deterioration exists, the Commission shall take account, *inter alia*, of the following factors concerning European Union producers, where such information is available:

- (i) market share;
- (ii) production;
- (iii) stocks;
- (iv) production capacity;
- (v) bankruptcies;

- (vi) profitability;
- (vii) capacity utilisation;
- (viii) employment;
- (ix) imports;
- (x) prices.

Article 24

1. The Commission shall investigate whether the normal Common Customs Tariff duties should be reintroduced if there is sufficient *prima facie* evidence that the conditions of Article 22(1) are met.
2. An investigation shall be initiated upon request by a Member State, by any legal person or any association not having legal personality, acting on behalf of Union producers, or on the Commission's own initiative if it is apparent to the Commission that there is sufficient *prima facie* evidence, as determined on the basis of factors referred to in Article 23, to justify such initiation. The request to initiate an investigation shall contain evidence that the conditions for imposing the safeguard measure set out in Article 22(1) are met. The request shall be submitted to the Commission. The Commission shall, as far as possible, examine the accuracy and adequacy of the evidence provided in the request to determine whether there is sufficient *prima facie* evidence to justify the initiation of an investigation.
3. Where it is apparent that there is sufficient *prima facie* evidence to justify the initiation of a proceeding the Commission shall publish a notice in the *Official Journal of the European Union*. Initiation shall take place within one month of the request received pursuant to paragraph 2. Should an investigation be initiated, the notice shall provide all necessary details about the procedure and deadlines, including recourse to the Hearing Officer of the Directorate General for Trade of the European Commission.
4. An investigation, including the procedural steps referred to in Articles 25, 26 and 27, shall be concluded within 12 months from its initiation.

Article 25

On duly justified grounds of urgency relating to deterioration of the economic and/or financial situation of European Union producers which would be difficult to repair, the Commission shall be empowered to adopt immediately applicable implementing acts in accordance with the urgency procedure referred to in Article 38(4) to reintroduce normal Common Customs Tariff duties for a period of up to 12 months.

Article 26

Where the facts as finally established show that the conditions set out in Article 22(1) are met, the Commission shall adopt an implementing act to reintroduce the Common Customs Tariff duties in accordance with the examination procedure referred to in Article 38(3). Such a

decision shall enter into force within one month from the date of its publication in the *Official Journal of the European Union*.

Article 27

Where the facts as finally established show that the conditions set out in Article 22(1) are not met, the Commission shall adopt a decision terminating the investigation and proceeding in accordance with the examination procedure referred to in Article 38(3). Such a decision shall be published in the *Official Journal of the European Union*. The investigation shall be deemed terminated, if no decision is published within the period referred to in Article 24(4) and any urgent preventive measures shall automatically lapse.

Article 28

Customs duties shall be reintroduced as long as necessary to counteract the deterioration in the economic and/or financial situation of European Union producers, or as long as the threat of such deterioration persists. The period of reintroduction shall not exceed three years, unless it is extended in duly justified circumstances.

ANNEX V

List of products included in the general arrangement referred to in Article 1 (2) (a)

Notwithstanding the rules for the interpretation of the Combined Nomenclature, the description of the products is to be considered as indicative, the tariff preferences being determined by the CN codes. Where "ex" CN codes are indicated, the tariff preferences are to be determined by the CN code and the description, together.

Entry of products with a CN code marked with an asterisk is subject to the conditions laid down in the relevant Community provisions.

The column 'Section' lists GSP Sections (Article 2 (g))

The column 'Chapter' lists CN chapters covered by a GSP Section (Article 2(h))

The column "Sensitive/non-sensitive" refers to the products included in the general arrangement Article 6. These products are listed as being either NS (non-sensitive, for the purposes of Article 7(1)) or S (sensitive, for the purposes of Article 7(2)).

For reasons of simplification, the products are listed in groups. These may include products for which Common Customs Tariff duties were withdrawn or suspended.

**LEGISLATIVE FINANCIAL STATEMENT FOR PROPOSALS HAVING A BUDGETARY
IMPACT EXCLUSIVELY LIMITED TO THE REVENUE SIDE**

1. NAME OF THE PROPOSAL:

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL applying a scheme of generalised tariff preferences

2. BUDGET LINES:

Chapter and Article: 120

Amount budgeted for the year 2011: EURO 16 653 700 000(Budget 2011)

3. FINANCIAL IMPACT

Proposal has no financial impact on expenditure but has a financial impact on revenue – the effect is as follows:

(EURO million to one decimal place)

Budget line	Revenue ³⁰	1 year period starting 01/01/2014	2014
Article 120 ...	<i>Impact on own resources</i>		-1.792,9

Situation following action					
	2015	2016			
Article 120 ...	-1.882,4	-1.976,7			

³⁰ Regarding traditional own resources (agricultural duties, sugar levies, customs duties) the amounts indicated must be net amounts, i.e. gross amounts after deduction of 25 % of collection costs. According to the current Own Resources Decision (Council Decision (EC, Euratom) No 436/2007 of 7 June 2007 on the system of the European Communities' own resources (OJ L 163, 23.6.2007, p. 17-21). This might be subject to change with entry into force of a new Own Resources Decision.

4. ANTI-FRAUD MEASURES

5. OTHER REMARKS

The scheme of generalised preferences (GSP) gives, under conditions, customs preferences to certain products entering the EU.

Based on the last available data (2009), these preferences represent under the current GSP regulation a loss of revenue for the EU of 2.970 Mio EURO (annex 1).

The loss of benefits can be obtained by multiplying the amount of preferential imports by the preferential margin, which is the difference between the MFN duty rate and the preference rate.

Consequently the new regulation would generate a loss of revenue as compared to the situation without preferences of 2.103 Mio EURO (annex 2) as well as supplementary revenue of 230, 7 Mio EURO (annex 3) due to the new graduation (removal of preferences for certain products/countries based on the importance of their imports).

As a result, the total loss of revenue would be 1.872 Mio EURO (gross amount) distributed among the different regimes in the following way:

Mio EURO	Pref. Imports	Loss of revenue	revenue of new graduation	Total loss
EBA	6.237	730	-	730
GSP +	2.835	307	-	307
GSP	31.066	1.066	231	835
Total	40.138	2.103	231	1.872

Assuming an increase of imports of 5% per year and deducting 25% that are retained in the Member States to compensate for collection costs, the following table gives an estimate of the loss of revenue to the EU budget (net amount) for the following years.
