Situation at the end of the third quarter of 1980

COM(81) 126 final

Article 10 of the Decision of the Representatives of the Governments of the Member States on the Provisional Location of Certain Institutions and Departments of the Communities (Merger Treaty) states that "the Governments of the Member States are willing to locate in Luxembourg, or to transfer thereto, other Community bodies and departments, particularly those concerned with finance, provided that their proper functioning can be ensured. To this end, they request the Commission to present to them annually a report on the current situation concerning the location of Community bodies and departments and on the possibility of taking new steps to give effect to this provision, account being taken of the need to ensure the proper functioning of the Communities".

Each year since 1968 the Commission has presented a report to the Council<sup>1</sup> in compliance with these provisions.

This report, the thirteenth, describes the situation at the end of October 1980.

### III. COMMISSION PREMISES IN BRUSSELS - SITUATION AND PROSPECTS

Here the Commission has acted in full conformity with the programme presented to the Council in April 1975 and the medium-term building plan prepared by the Council and the Commission at the suggestion of and in agreement with the Belgian Delegation.

The comparative stability in staff numbers has meant that the Commission has had to acquire only a small amount of extra space (1,498 m<sup>2</sup> for records in the basement of the Square de Meeus building rented in 1979).

Construction work being handled by the private sector in accordance with Commission plans (the JE/C/L triangle and the Borschette Centre) is up to schedule; these buildings are expected to be occupied in 1981. Agreement has been reached on relinquishing the conference rooms rented in the Manhattan Centre.

There have been serious delays with plans for new buildings which, according to the medium-term building plan, were to be constructed under Belgian auspices.

In view of the delays which have already occurred with respect to the original programme, the Commission is planning to start talks immediately with the Belgian Government to obtain assurances that the programme will go through according to schedule; the Commission will keep the Council informed of any new developments which result from the talks.

The Commission has already reported to the budgetary authority on the building situation over the last five years and the short and medium-term prospects (1).

COMMISSION PREMISES IN LUXEMBOURG - SITUATION AND PROSPECTS

In 1980 the Jean Monnet Building came close to completion and departments housed elsewhere moved in.

By the end of 1980 or the beginning of 1981, all Commission departments except for central computer services are expected to be housed in this building.

Naturally, the offices used by Members of the Commission when they are in Luxembourg will continue to be rented in the European Centre, close to the Council rooms and the Parliament chamber.

The chamber, which the Luxembourg authorities began building in 1979, was completed and handed over to Parliament in mid-1980, with the result that Parliament now has the proper facilities for performing the enhanced role conferred on it as a result of its new status.

Lastly, statements in earlier reports regarding the European Monetary Cooperation Fund still apply. Its physical and administrative resources will have to be boosted as soon as a decision is taken to move on to the next stage of the EMS as envisaged at the highest level.

The building occupied by the Office for Official Publications near the station needs to be extended to cope with new needs arising from, among other things, successive enlargements of the Community. A plan has been produced with the full support of the Luxemburg authorities, and has been submitted to the budgetary authorities. As finance is available the building can be ready about 2 years after a decision is taken to construct it. Immediate action on this plan would be highly desirable.
