Amended proposal for a

COUNCIL REGULATION

**on the methods and procedure for making available the traditional and GNI-based own resources and on the measures to meet cash requirements
(Recast)**

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

On 29 June 2011 the Commission adopted, as part of a broad package of proposals on the own resources system, a proposal for a Council Regulation on the methods and procedure for making available the traditional and GNI-based own resources and on the measures to meet cash requirements pursuant to Article 322(2) of the Treaty on the Functioning of the European Union (hereinafter "TFEU")¹. It announced that it would present the relevant detailed regulations or amendments to existing legal acts as well as the related regulations pursuant to Article 322(2) TFEU by the end of 2011. Accordingly, the Commission adopted a proposal for a Council Directive on a common system of financial transaction tax (hereinafter "the FTT Directive")² on 28 September 2011. In addition, Council Regulations on making the own resource based on the financial transaction tax (FTT) available to the EU budget³ and on calculating and making available the own resource based on value added tax (VAT)⁴ are proposed together with this proposal.

The purpose of this amended proposal is to ensure that cash requirements will be met under the new structure of EU financing introduced by the proposal for a Council Decision on the system of own resources of the European Union⁵ and these new proposals.

The Commission will examine the possibility to consolidate the provisions for determining and making available all the own resources of the Union in one single Regulation following an overall agreement on the own resources package.

2. CONTENT OF THE PROPOSAL

Apart from several purely formal adjustments related to the recast technique, only one change of substance is included in this amended proposal compared to the proposal made on 29 June 2011.

Article 9(3), second subparagraph of the proposal, 'Determining amounts, timing for making available, adjustments':

¹ COM(2011)512 final of 29 June 2011.

² Proposal for a Council Directive on a common system of financial transaction tax and amending Directive 2008/7/EC, COM(2011)594 of 28.9.2011.

³ Proposal for a Council Regulation on the methods and procedure for making available the own resource based on the financial transaction tax, COM(2011)738 of 9.11.2011.

⁴ Proposal for a Council Regulation on the methods and procedure for making available the own resource based on the value added tax, COM(2011)737 of 9.11.2011.

⁵ COM(2011)510 final of 29 June 2011 amended by COM(2011)739 of 9.11.2011.

The analysis of the current system shows that up to two twelfths of GNI-based and current VAT own resources are systematically brought forward in the first quarter of the year to cover cash requirements, due mainly to expenditure of the European Agricultural Guarantee Fund (EAGF):

Financial year	Number of twelfths called in the first quarter	Amount called in advance
2009	5	24 billion EUR
2010	4,5	25 billion EUR
2011	4,3	21 billion EUR

The structure of EU financing for the period 2012 – 2020 is expected to change considerably with the ending of the current VAT own resource and the introduction of new own resources as from 1 January 2014⁶.

The estimated share of the GNI-based and the current VAT own resources in the EU budget revenue for 2012 is 85% (74% and 11%, respectively). In 2020, the current VAT own resource will no longer exist while it is estimated that the share of the GNI-based own resource will fall to 40%. In other words, the share of own resources based on a regular financial stream, pre-defined in the context of the budgetary procedure, will be halved compared to today. Accordingly, advance payments of twelfths of the corresponding GNI-based own resource will only bring cash to the EU budget for about half of the current amounts, *ceteris paribus*.

The possibility of calling in advance other own resources, in particular the proposed new own resources based on VAT and on the FTT, appear less practicable. Those resources will be based on actual receipts collected by the Member States and the amounts made available to the EU budget will fluctuate accordingly. Organizing a payment of twelfths would require mechanisms of forecasts, and subsequent adjustments or balances exercises, thus adding an unnecessary layer of complexity to the system.

Since it can be assumed that cash requirements will be in excess of the assets of the accounts in the first quarter of every year, even after calling in advance two GNI twelfths, it is proposed to double the number of twelfths available in advance (from two to four) in order to compensate the decrease of the GNI share in the EU financing. This is a mechanical adjustment of the existing system which will ensure the same capacity to face cash requirements of the EU budget as is the case today.

⁶ See the table in annex "Estimated evolution of the structure of EU financing (2012- 2020)" included in the Explanatory Memorandum of the proposal for a Council Decision on the system of own resources of the European Union, COM(510)final of 29 June 2011, p.5.

(2) Certain provisions of Regulation (EC, Euratom) No 1150/2000 have been included in Council Regulation (EU) No [.../...] laying down implementing measures for the system of own resources of the European Union¹² and should thus not be covered by this Regulation. Those provisions concern the rate of call of the own resource based on Gross National Income (GNI) referred to in Article 2(1)(d) of Council Decision [.../...] on the system of own resources of the European Union¹³, the calculation and budgeting of the balance, control and supervision of own resources and supplementary reporting requirements, as well as the Advisory Committee on Own Resources (ACOR).

(3) The Union must have the own resources referred to in Article 2 of Decision [.../...] available in the best possible conditions and accordingly rules should be laid down for the Member States to provide the Commission with those own resources. This Regulation takes over the rules on making available the traditional own resources referred to in Article 2(1)(a) of Decision [.../...] and those in Article 2(1)(d) of that Decision (hereinafter "GNI-based own resource"), previously included in Regulation (EC, Euratom) No 1150/2000. As the methods and procedure may vary considerably depending on the type of own resources concerned, provisions on making available the own resources referred to in Article 2(1)(b) and (c) of Decision [.../...] should be laid down in separate regulations pursuant to Article 322(2) of the Treaty.

~~The Commission shall inform the Member States of these adjustments in time for them to enter them in the account referred to in Article 9(1) on the first working day of December of the same year.~~
