Proposal for a

**COUNCIL DECISION**

**on the signing, on behalf of the European Union, and provisional application of the Protocol setting out the fishing opportunities and the financial contribution provided for by the Fisheries Partnership Agreement between the European Union and the Republic of Cape Verde**

## **EXPLANATORY MEMORANDUM**

### **1. CONTEXT OF THE PROPOSAL**

The Council authorised the European Commission to negotiate, on behalf of the European Union, the renewal of the Protocol to the Fisheries Partnership Agreement between the European Community and the Republic of Cape Verde. At the end of the negotiations a new draft protocol was initialled by the negotiators on 28 August 2014. The new Protocol covers a period of four years from the date of provisional application laid down in Article 15, that being the date on which it is signed.

The main purpose of the Protocol to the Agreement is to grant fishing opportunities to Union vessels in the fishing zone of the Republic of Cape Verde, in accordance with the best scientific opinions available and the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT), where applicable within the limits of the available surplus. The Commission's negotiating position was based in part on the results of an ex-post evaluation of the previous Protocol carried out by external experts.

The general aim is to enhance cooperation between the European Union and the Republic of Cape Verde, thereby creating a partnership framework within which to develop a sustainable fisheries policy and sound exploitation of fishery resources in the fishing zone of the Republic of Cape Verde, in the interests of both parties.

The Protocol provides for fishing opportunities in the following categories:

- 28 tuna seiners
- 30 surface longliners
- 13 pole-and-line tuna vessels.

The Commission proposes, on this basis, that the Council authorise the signing and provisional application of the new Protocol.

### **2. RESULTS OF CONSULTATIONS WITH THE INTERESTED PARTIES AND IMPACT ASSESSMENTS**

The interested parties were consulted during the evaluation of the Protocol for the period 2011-14. Experts from the Member States were also consulted in technical meetings. These consultations led to the conclusion that it would be beneficial to maintain a fishing protocol with the Republic of Cape Verde.

### **3. LEGAL ELEMENTS OF THE PROPOSAL**

This procedure is being initiated in parallel with the procedures relating to the Council Decision concluding the Protocol itself, and to the Council Regulation concerning the allocation of the fishing opportunities between the EU Member States.

### **4. BUDGETARY IMPLICATIONS**

The annual financial contribution is EUR 550 000 the first two years and EUR 500 000 the last two years, based on (a) a reference tonnage of 5 000 tonnes, for which an amount linked to access has been set at EUR 275 000 the first two years and EUR 250 000 the last two years, and (b) support for development of the sectoral fisheries policy of the Republic of Cape Verde, amounting to EUR 275 000 per year the first two years and EUR 250 000 per year the

last two years. This support meets the objectives of the national fisheries policy and in particular the needs of the Republic of Cape Verde in its fight against illegal fishing.

- The proposal/initiative relates to an **action redirected towards a new action**

#### 1.4. Objective(s)

##### 1.4.1. *The Commission's multiannual strategic objective(s) targeted by the proposal/initiative*

The negotiation and conclusion of fisheries agreements with third countries meets the general objective of giving EU fishing vessels access to fishing zones located in third countries' Exclusive Economic Zones (EEZ) and developing a partnership with those countries with a view to strengthening the sustainable exploitation of fishery resources outside EU waters.

The Fisheries Partnership Agreements (FPAs) also ensure coherence between the principles governing the Common Fisheries Policy and the commitments made under other European policies (sustainable use of third-country resources, combating illegal, unreported and unregulated (IUU) fishing, integration of partner countries into the global economy and better political and financial governance of fisheries).

##### 1.4.2. *Specific objective(s) and ABM/ABB activity(-ies) concerned*

###### Specific Objective 1:

To contribute to sustainable fishing in non-EU waters, maintain a European presence in distant-water fisheries and protect the interests of the European fisheries sector and consumers by negotiating and concluding FPAs with coastal states, consistent with other European policies.

###### ABM/ABB activity(-ies) concerned

<sup>2</sup> ABM: Activity-based management – ABB: Activity-Based Budgeting.

<sup>3</sup> As referred to in Article 54(2)(a) or (b) of the Financial Regulation.

Maritime affairs and fisheries. To establish a governance framework for fishing activities carried out by EU fishing vessels in third country waters (SFAs) (budget line 11.0301)

*1.4.3. Expected result(s) and impact*

*Specify the effects which the proposal/initiative should have on the beneficiaries/groups targeted.*

The conclusion of the Protocol will help maintain the fishing opportunities for EU vessels in the Cape Verdean fishing zone.

The Protocol will also contribute to better management and conservation of fishery resources, through financial support (sectoral support) for the implementation of programmes adopted at national level by the partner country, in particular to monitor and combat illegal fishing.

*1.4.4. Indicators of results and impact*

*Specify the indicators for monitoring implementation of the proposal/initiative.*

Rates of utilisation of fishing opportunities (annual uptake of fishing authorisations as a percentage of availability under the Protocol);

Gathering and analysing data on catches and the commercial value of the Agreement;

Contribution to employment and to added value in the EU and to stabilising the EU market (in aggregate with other FPAs);

Number of technical meetings and meetings of the Joint Committee.

**1.5. Grounds for the proposal/initiative**

*1.5.1. Requirement(s) to be met in the short or long term*

The Protocol for the period 2011-14 expired on 31 August 2014. It is intended that the new Protocol will apply provisionally from the date of its signature. To secure continuity of fishing operations, a procedure for adoption by the Council of a Decision on the signing and provisional application of the Protocol has been launched in parallel with this procedure.

The new Protocol will provide a framework for the fishing activities of the European fleet in the Cape Verdean fishing zone and will allow European vessel owners to apply for fishing licences allowing them to fish in Cape Verdean waters. In addition, the new Protocol enhances cooperation between the EU and the Republic of Cape Verde, with a view to promoting the development of a sustainable fisheries policy. It provides, in particular, for vessels to be monitored via VMS and for the electronic transmission of catch data. Sectoral support has been strengthened to help the Republic of Cape Verde with its national fisheries strategy, including in the fight against IUU fishing.

*1.5.2. Added value of EU involvement*

As regards this new Protocol, failure to act by the EU would allow the emergence of private agreements which would not guarantee sustainable fisheries. The European Union also hopes that with this Protocol, the Republic of Cape Verde will continue to cooperate effectively with the EU particularly as regards the fight against illegal fishing.

### 1.5.3. *Lessons learned from similar experiences in the past*

Based on an analysis of catches under the previous Protocol, the parties have agreed to maintain the reference tonnage but to reduce the number of surface longliners (from 35 to 30) and to slightly increase the number of pole-and-line tuna vessels (from 11 to 13) The number of tuna seiners remains unchanged at 28 vessels.

Given that pelagic sharks are among the species caught by the EU fleet, catches of these species by longline vessels require particular attention. A strict mechanism will be set up to monitor these fisheries so as to ensure sustainable exploitation of the resource, and a study will be carried out to analyse the condition of sharks and the impact of fishing on local ecosystems. This will provide data on the migratory patterns of the species concerned and help identify biologically and environmentally vulnerable zones in Cape Verde and the tropical Atlantic.

Sectoral support has been strengthened taking account of the priorities of the national fisheries strategy and requirements in terms of building the capacity of the Cape Verdean fishing authorities.

### 1.5.4. *Compatibility and possible synergy with other appropriate instruments*

Funds paid out under FPAs constitute fungible revenue in the budgets of the third-country partners. However, allocating some of those funds for implementing measures as part of the country's sectoral policy is a condition for the conclusion and monitoring of FPAs. These financial resources are compatible with other sources of funding from other providers of international funding for carrying out projects and/or programmes at national level in the fisheries sector.

## 1.6. **Duration and financial impact**

### Proposal/initiative **of limited duration**

- Proposal/initiative in force from the date of signature and for a duration of four years.
- Financial impact from 2015 to 2018

### Proposal/initiative **of unlimited duration**

- Implementation with a start-up period from YYYY to YYYY,
- followed by full-scale operation.

## 1.7. **Management mode(s) envisaged**

### **Direct management** by the Commission

- By its departments, including by its staff in the Union delegations;
- by the executive agencies

### **Shared management** with Member States

### **Indirect management** by entrusting budget implementation tasks to:

- third countries or the bodies they have designated;
- international organisations and their agencies (please specify);
- the EIB and the European Investment Fund;
- bodies referred to in Articles 208 and 209 of the Financial Regulation;

- public law bodies;
- bodies governed by private law with a public service mission to the extent that they provide adequate financial guarantees;
- bodies governed by the private law of a Member State that are entrusted with the implementation of a public-private partnership and that provide adequate financial guarantees;
- persons entrusted with the implementation of specific actions in the CFSP pursuant to Title V of the TEU, and identified in the relevant basic act.

## **2. MANAGEMENT MEASURES**

### **2.1. Monitoring and reporting rules**

*Specify frequency and conditions*

The Commission (DG MARE, in collaboration with its fisheries counsellor in Senegal and the European Union’s Delegation in Dakar) will ensure regular monitoring of the implementation of this Protocol, particularly as regards operators’ use of fishing opportunities and catch data.

The Fisheries Partnership Agreement provides for at least one annual meeting of the Joint Committee, at which the Commission and the Republic of Cape Verde review the implementation of the Agreement and the Protocol thereto and, if necessary, adjust the programming and, if applicable, the financial contribution.

### **2.2. Management and control system**

#### *2.2.1. Risk(s) identified*

There is some risk in setting up a fisheries protocol, particularly with regard to the amounts intended to finance the sectoral fisheries policy (under-programming).

#### *2.2.2. Information concerning the internal control system set up*

Extensive dialogue is planned on the programming and implementation of the sectoral policy. Joint analysis of results, as referred to in Article 3, also forms part of these control methods.

In addition, the Protocol contains specific clauses for its suspension, on certain conditions and in given circumstances.

#### *2.2.3. Estimate of the costs and benefits of the controls and assessment of the expected level of risk of error*

### **2.3. Measures to prevent fraud and irregularities**

*Specify existing or envisaged prevention and protection measures*

The Commission undertakes to establish regular political dialogue with the Republic of Cape Verde with a view to improving the management of the Agreement and

strengthening the EU's contribution to the sustainable management of resources. In any case, any payment which the Commission makes under a fisheries agreement is subject to the Commission's standard rules and budgetary and financial procedures. This makes it possible, in particular, to fully identify the bank accounts of the third countries into which the financial contribution is paid. For this particular Protocol, Article 2(7) stipulates that the entire financial contribution must be paid into a Public Treasury account opened with a financial institution specified by the Cape Verdean authorities.
