Proposal for a

COUNCIL DECISION

granting a Community guarantee to the European Investment Bank against losses under loans for projects outside the Community (Central and Eastern Europe, Mediterranean countries, Latin America and Asia and the Republic of South Africa)

(Codified version)

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. In the context of a people's Europe, the Commission attaches great importance to simplifying and clarifying Community law so as to make it clearer and more accessible to the ordinary citizen, thus giving him new opportunities and the chance to make use of the specific rights it gives him.

This aim cannot be achieved so long as numerous provisions that have been amended several times, often quite substantially, remain scattered, so that they must be sought partly in the original instrument and partly in later amending ones. Considerable research work, comparing many different instruments, is thus needed to identify the current rules.

For this reason a codification of rules that have frequently been amended is also essential if Community law is to be clear and transparent.

2. On 1 April 1987 the Commission therefore decided¹ to instruct its staff that all legislative acts should be codified after no more than ten amendments, stressing that this is a minimum requirement and that departments should endeavour to codify at even shorter intervals the texts for which they are responsible, to ensure that the Community rules are clear and readily understandable.
3. The Conclusions of the Presidency of the Edinburgh European Council (December 1992) confirmed this², stressing the importance of codification as it offers certainty as to the law applicable to a given matter at a given time.

Codification must be undertaken in full compliance with the normal Community legislative procedure.

Given that no changes of substance may be made to the instruments affected by codification, the European Parliament, the Council and the Commission have agreed, by an interinstitutional agreement dated 20 December 1994, that an accelerated procedure may be used for the fast-track adoption of codification instruments.

4. The purpose of this proposal is to undertake a codification of Council Decision 2000/24/EC of 22 December 1999 granting a Community guarantee to the European Investment Bank against losses under loans for projects outside the Community (Central and Eastern Europe, Mediterranean countries, Latin America and Asia and the Republic of South Africa)³. The new Decision will supersede the various acts incorporated in it⁴; this proposal fully preserves the content of the acts being codified and hence does no more than bring them together with only such formal amendments as are required by the codification exercise itself.
5. The codification proposal was drawn up on the basis of a preliminary consolidation, in all official languages, of Decision 2000/24/EC and the instruments amending it,

Decision 97/256/EC, the EIB's total lending effort to applicant countries within this region should increase given the importance of the pre-accession facility the EIB plans to create for EIB lending for projects in these countries without a guarantee from the Community budget or Member States.

↓ 2000/24/EC Recital 9

- (10) In these circumstances, the EIB should ensure that its guaranteed lending within the Central and Eastern Europe mandate will finance particularly projects in those countries which have fewer projects suitable for financing from the pre-accession facility or projects in non-applicant countries.

- (11) The Cooperation Agreements between the European Community and Nepal, between the European Community and the Lao People's Democratic Republic and between the European Community and Yemen entered into force on 1 June 1996, 1 December 1997 and on 1 July 1998 respectively. The Cooperation Agreement between the European Community and South Korea was signed on 28 October 1996. Nepal, Yemen, Laos and South Korea should become beneficiaries of EIB funding under the EIB's mandate for Asia and Latin America.

- (12) It is appropriate to make certain improvements in the programmes of operations in respect of duration and country coverage. - (14) In June 1996, the Commission, in agreement with the EIB, presented to the Council a proposal for a new guarantee system for EIB lending to third countries.
-

↓ 2000/24/EC Recital 14
(adapted) and 2005/47/EC Recital
5 (adapted)

- (15) On 2 December 1996 the Council approved conclusions on new guarantee arrangements for EIB lending to third countries, according to which the approach of a global guarantee, without distinguishing between the regions and projects, is approved and a risk-sharing scheme accepted. Under the risk-sharing scheme ☒ the budgetary guarantee should cover ☒ only political risks arising from currency non transfer,

expropriation, war or civil disturbance ☒ and denial of justice upon breach of certain contracts by the third country government or other authorities ☒.

2005/47/EC Recital 6

- (16) Under the risk-sharing scheme, the EIB should secure commercial risks by means of non-sovereign third-party guarantees or by means of any other security or collateral as well as relying on the financial strength of the debtor, in accordance with its usual criteria.
-

↓ 2000/24/EC Recital 15

- (17) The guarantee arrangements should not affect the excellent credit standing of the EIB.
-

↓ 2000/24/EC Recital 16

- (18) Council Regulation (EC, Euratom) No 1149/1999¹² revised the target amount and the provisioning rate for the Loan Guarantee Fund established by Council Regulation (EC, Euratom) No 2728/94¹³.
-

↓ 2005/47/EC Recital 7

- (19) The financial perspective for the period 2000 to 2006 according to the Interinstitutional Agreement of 6 May 1999 between the European Parliament, the Council and the Commission on budgetary discipline and improvement of the budgetary procedure¹⁴ envisages a ceiling for the loan guarantee reserve in the Community budget of EUR 200 million (at 1999 prices) per annum.
-

↓ 2000/24/EC Recital 18

- (20) EIB financing in eligible third countries should be managed, in accordance with the EIB's usual criteria and procedures, including appropriate control measures, as well as with the relevant rules and procedures concerning the Court of Auditors and OLAF, in such a way as to support Community policies and to enhance coordination with the Community's other financial instruments. There is regular consultation between the EIB and the Commission to ensure coordination of priorities and activities in these countries and to measure progress towards the fulfilment of the Community's relevant policy objectives. The setting and periodic review of the operation objectives and the measurement of their fulfilment are the responsibility of the EIB's Board of Directors. In particular, EIB financing in the candidate countries should reflect the priorities established in the accession partnerships between the Community and those countries. Thus the transparency of the EIB lending under this Decision should be substantially enhanced.

- (21) Close cooperation between the EIB and the Commission should ensure consistency and synergy with the European Union's geographical cooperation programmes and ensure that the EIB loan operations complement and strengthen the European Union's policies for those regions.
