The aim of this draft Council Regulation is to suspend customs duty autonomously for an indefinite period, on certain goods contained in Chapter 30 (pharmaceutical products), and hence amend Council Regulation (EEC) No 2658/87 on the tariff and statistical nomenclature and on the Common Customs Tariff.

- **General context**

- (1) Chapter 30 of the Combined Nomenclature (CN) covers pharmaceutical products.
- (2) Sterile surgical or dental adhesion barriers, whether or not absorbable, are, in 2006, classified in chapter 39 or 60 (according to their constituent material) of the 2002 version of the Harmonised System. Appliances identifiable for ostomy use are, in 2006, classified in chapter 39 of the 2002 version of the Harmonised System. Those products are subject to a 6,5% customs duty.
- (3) Such products will be classifiable, from 1 January 2007, in Chapter 30 of the Combined Nomenclature following the transposition of the CN into the HS 2007 (as a result of the amendments to the nomenclature appended as an annex to the International Convention on the Harmonized Commodity Description and Coding System accepted pursuant to the Recommendation of 26 June 2004 of the Customs Co-operation Council).
- (4) As an outcome of the Uruguay Round negotiations on pharmaceutical products, Chapter 30 is free of customs duties.
- (5) On public health grounds, it is of the Community interest to autonomously extend this exemption from customs duties to these products.

amending Annex I to Regulation (EEC) No 2658/87 on the tariff and statistical nomenclature and on the Common Customs Tariff

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 26 thereof,

Having regard to the proposal from the Commission¹,

Whereas:

- (1) Following the negotiations in the framework of the Uruguay-Round, provision was made in the Combined Nomenclature (CN), laid down in Annex I to Council Regulation (EEC) No 2658/87², for an exemption from tariff duties for pharmaceutical products falling under Chapter 30.
- (2) Sterile surgical or dental adhesion barriers, whether or not absorbable, and appliances identifiable for ostomy use, are classified currently in different chapters of the Combined Nomenclature and are subject to a 6,5% rate of duty. However, after 1 January 2007, they are to be classified in Chapter 30 of the Combined Nomenclature as a result of the amendments to the Nomenclature appended as an annex to the International Convention on the Harmonized Commodity Description and Coding System, accepted pursuant to the Recommendation of 26 June 2004 of the Customs Co-operation Council.
- (3) For reasons of public health, it is in the Community interest to extend autonomously to those goods the exemption for pharmaceutical products falling under Chapter 30. That should be done by means of a suspension of duties for an indefinite period.
- (4) Regulation (EEC) No 2658/87 should therefore be amended accordingly.
- (5) Since the amendment introduced by this Regulation is to be applied from the same date as the Combined Nomenclature for 2007, laid down in Regulation (EC) No 1549/2006, this Regulation should enter into force immediately and apply from 1 January 2007,

3. FINANCIAL IMPACT

Proposal has no financial implications

Proposal has no financial impact on expenditure but has a financial impact on revenue – the effect is as follows:

It is very difficult to estimate the loss of own resources involved. No precise statistics for these two categories of products are available at import because they are classified, in 2006, in different residual subheadings where the trade volume is very high.

On the basis of the imports realized in 2005, the maximum loss of revenue has been estimated to EURO 1.104. 000 (before deduction of the 25 %) for the two products, which is the estimated loss for 2005 of goods, similarly transferred in the previous HS exercise.
