COMMISSION OF THE EUROPEAN COMMUNITIES

COM(79) 28 final

Brussels, 26 January 1979

Proposal for a

COUNCIL REGULATION (EEC)

laying down for the period 1 February to 31 March 1979
certain interim measures for the conservation and
management of fishery resources applicable to vessels
flying the flag of Spain

(submitted to the Council by the Commission)

COM(79) 28 final

EXPLANATORY MEMORANDUM

A framework agreement was signed on 23 September 1978 by the Community and Spain. Following an exchange of letters between the two parties, this agreement became provisionally operative pending it being concluded by ratification. The Commission has submitted a proposition to the Council to this effect.

In accordance with the dispositions of this agreement, the two parties conferred on the fishing effort during the last quarter of 1978 of one in the waters of the other. The results of these consultations were ratified by the Community by the adoption of regulation no. 2327/78 of 4 October 1978 valid until 31 December 1978.

As the consultations regarding the definition of rules for 1979 were not concluded before this date, the Community adopted, in order to avoid an interruption of fishing by Spanish vessels on the Community zone, Regulation no. 3152/78 of 21 December 1978, authorizing fishing for the month of January.

Consultations with the Spanish delegation have been continued during the month of January, without, however, leading to agreement. This agreement is unlikely to occur before the end of the validity of the Regulation currently in force. As the reasons for extending the previous régime by a month still apply, the Commission proposes that this régime be extended for another two months period by the adoption by the Council of the regulation which is the object of this proposal.
